AMBLERS HIKING CLUB

So far about 32000 hikers and others have hiked with us in this awesome hiking facility, suitable for fitter and stronger or young hikers. We have hiked at least hiking at least some 200000km.

Every Sunday afternoon at 2pm when the heat of summer leaves the day, we hike some of Durban's most awesome hiking trails. We have some 40 well know hiking trails situated between Umdloti in the North and Cato Ridge in the West. Some trails are 7km long and for entry level hikers and other are longer, quite extreme and will challenge the fit. We also visit local game reserves around Durban to view game while we hike and the local mountain bike park for some extreme hiking. Local hiking improves our fitness levels and prepares us for more exotic destinations like the midlands peaks and the Drakensberg.

The absolute highlights of our hiking calendar are hiking the Bluff Military Base to visit world war two armaments including the big guns and the whaling station now derelict and awaiting restoration for tourists. We give some history and information to complete the hike!
